## CALIXPYRROLES

### In the Claims

Claims 91, and 111-117 are canceled without prejudice for filing in a divisional application.

## REMARKS

### I. Status of the Claims

Claims 91, and 111-117 are canceled without prejudice for filing in a divisional application. Claims 1, 4, and 95-110 are pending.

### II. Election Requirement

The Office Action defined patentably distinct species comprising compositions of pyrroles, pyridines, and pyridinopyrroles, and required an election of a single species.

#### Response

Applicants elect, without traverse, the species of calixpyrroles as reflected by the claim cancellations. Applicants reserve the right to file a divisional application on the nonelected species. Claims 1, 4, and 95-110 read on the species of calixpyrroles.

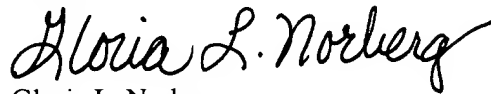

### III. Inventorship

The inventorship has been amended to reflect the inventorship of the elected species of calixpyrroles. Filed concurrently herewith is a Request for Correction of Inventorship under 37 CFR 1.48(b) stating that John W. Genge is no longer an inventor of the invention claimed as a result of claim cancellations in response to the election requirement.

#### IV. Conclusion

It is believed that all matters of the Office Action have been addressed. Reconsideration and an early indication of the allowability of Claims 1, 4, and 95-110 are earnestly requested. Should the Examiner have any questions, comments or suggestions that would expedite the prosecution of the present case to allowance, Applicant's undersigned representative earnestly requests a telephone conference at (512) 499-6200.

Respectfully submitted,

Gloria L. Norberg
